## **Volatus Infrastructure Chooses Design Partner**

*Volatus and Play&Co have teamed up for design services and business development*

**Neenah, WI – August 24, 2022**—Volatus Infrastructure, LLC and the Australian-based company Play&Co Creative Group announced today that they will be working together in two ways. Play&Co will head up their future design projects and experiences as well as provide business development services for the fast-growing Australian electric vertical take-off and landing (eVTOL) infrastructure market.

This partnership adds to the growing list of countries Volatus Infrastructure has a presence in. “We are seeing an increase in the number of eVTOL companies that are expanding to Australia,” said Volatus Co-Founder, Grant Fisk. “In order for our industry to succeed eVTOL infrastructure needs to be on every continent, in every country and in every town.”

“Play&Co’s partnership with Volatus marks an exciting time for the eVTOL industry and the Australian design community,” said Brendan Hutchieson, Play&Co Co-Founder and Managing Director. “As the first vertiport manufacturer in the space, Volatus has realized the urgency to envision and blueprint the complete designed experience for passengers, brands and operators. This partnership will leverage our team’s extensive experience in the aviation, modular architecture and electric vehicle sectors to define and deliver the future of aviation.”

Play&Co is a strategic industrial design agency that delivers world-class design services for start-ups through to global organizations. Founded in 2015 with offices based in Portland, Oregon and Melbourne, Australia; their products have won iF, Red Dot, Good Design and Edison Awards. Their work has featured in Fast Company, Core77 and other related media channels. Clients include Blokable, Philips, HP and Thyssenkrupp. Learn more at [www.playandco.com](http://www.playandco.com).

Founded in 2021, Volatus Infrastructure, LLC is connecting communities to the future with best-in-class eVTOL infrastructure technology to ensure society is ready for the future. Volatus offers three main eVTOL infrastructure designs, a vehicle agnostic charging station, plus an app and maintenance programs. By tailoring to specific needs while incorporating the latest technologies their work positively impacts clients and the communities they serve. Join the future with Volatus Infrastructure.
